## Achieve Extraordinary Results through Others

Program Duration: 3 Days 8:30 AM – 4:30 PM

“Opportunities for leadership are all around us. The capacity for leadership is deep within us. Matching the two is ... the world’s hope.”  
— Madeleine Albright

Effective leaders continuously enhance their skill set to make an impact for the people and organizations they lead. The journey is defined by experience, self-awareness and personal development. The **Leading Today Certificate** provides necessary tools to create a human centered leadership approach that is also authentic and aligned with your values. The Leading Today Certificate is a hands-on, multi-layered learning experience. The overall approach is to provide framework for understanding who you are as a leader, where you want your team or organization to go and how you are going to get there.

In this highly interactive learning experience, we will explore the characteristics of great leaders that will help you establish your influential leadership presence. You will learn new tools to help you lead teams through change, inspire diverse and distributed organizations, grow great talent, and learn by leaning in. We’ll also explore the unique challenges of leading in a world that has become increasingly volatile, unexpected, uncertain, complex, and ambiguous — a future some call the VUCA World.

Our journey together is based on a simple framework of Human Centered Leadership:

- Empathy for self and others
- Choosing curiosity over judgment
- Openness to being wrong
- Importance of perspective taking and inviting diverse perspectives
- Creating conditions for psychological safety

### Participants will walk away with these skills:

- How to lead with empathy through change, crisis, and disruption
- How to inspire behavior change in self and others
- How to leverage the diversity of talent (including diversity of thought and experience) in the organization
- How to practice human centered leadership
- How to shift the mindset of an organization via inspiration

### **Foundation: Building a Human Centered Leadership Mindset**

At the heart of our model is a belief that leadership is a choice to serve, not merely a path to promotion. We'll unpack the differences between managing and leading, clarity and certainty, intention and impact.

### **Skills: Applying the principles of Human Centered Leadership**

We will focus on the insights and skills required for Human Centered Leadership. We'll provide approaches and tools aligning organizations and creating a culture that inspires high performance, staying the course or making course corrections in the face of change or failure, building psychological safety and unleashing potential of the team. We'll include team-based exercises that enable you to practice these concepts to enable immediate application post-session

### **Challenge: Leading Today: Building the confidence to lead in a VUCA world.**

We are living in a VUCA world — volatile, uncertain, complex, and ambiguous. These conditions demand the very best of us as leaders, and can be incredibly stressful, but we can turn them into opportunity with the mindset and skills you'll be developing throughout this learning experience.

### **Capstone Project:**

To successfully complete this certificate program and earn a badge, you will complete a capstone project that will be reviewed by program facilitators. We'll ask you craft your human centered leadership philosophy to share with others at the organization.
